

## List of Species Authorized for the Grant

(within the Ash Tree Replacement Program)

To be eligible for a grant of up to \$100, a tree must meet **all** of these criteria:

- The tree must be 9 or more metres high at maturity (**or** on the list of eligible tree species). Some species **are not accepted\***.

-Hardwood (leafy) trees with a minimum diameter of 2.5 centimetres at the time of purchase, measured at 1.4 metres from the ground, or coniferous (evergreen) trees with a minimum height of 150 centimetres at the time of purchase.

Costs related to planting or the purchase of planting material are not eligible (soil, compost, stakes, fertilizers).

### Trees not eligible for the grant:

-All trees that are less than 9 metres tall at maturity **are not accepted**.

-All trees whose variety name includes one of the following terms: '*Nana*', '*Pendula*', '*Globosum*', '*Contorta*', are not accepted. (Read the tree tags carefully, especially in the case of conifers.)

-All trees of the Rosaceae family (apple, plum, pear, mountain ash, hawthorn, etc.) and all ash trees **are not accepted** because of their high susceptibility to insects and diseases.

-All varieties of Norway maple (*Acer platanoides*) **are not accepted** because of their invasive nature in the environment.

Other exceptions may apply; in case of doubt, it is best to contact the Public Works Department before making the purchase.

### List of species authorized for the grant, in alphabetical order, in latin :

Species	Varieties
<i>Abies balsamea</i>	
<i>Abies concolor</i>	
<i>Acer rubrum</i>	
<i>Acer rubrum</i>	Armstrong
<i>Acer rubrum</i>	Bowhall
<i>Acer rubrum</i>	Brandywine
<i>Acer rubrum</i>	Morgan
<i>Acer rubrum</i>	Northwood
<i>Acer saccharinum</i>	
<i>Acer saccharinum</i>	Laciniatum Wieri
<i>Acer saccharinum</i>	Silver
<i>Acer saccharum</i>	
<i>Acer saccharum</i>	Green Mountain

<i>Acer saccharum</i>	Fall Fiesta
<i>Acer saccharum</i>	Temple Upright
<b>Espèces</b>	<b>Variétés</b>
<i>Acer x freemanii'</i>	
<i>Acer x freemanii'</i>	Armstrong et Armstrong II
<i>Acer x freemanii'</i>	Autumn Blaze
<i>Acer x freemanii'</i>	Autum Fantasy
