

Step-by-Step Guide to Compliance with By-law 979

## Scenario 1

There is <u>no longer</u> an oil tank on your property.

Fill out sections 1 and 3 of the form for complying with the by-law on the removal of oil tanks available online at ville.rosemere.qc.ca/environmentally-friendly-solutions and send it back as soon as possible to permis.inspections@ville.rosemere.qc.ca.

Within approximately two weeks, you will be contacted by an inspector from the Urban Planning Department who will arrange a time to come check that the tank has been removed.

The inspection will take place to ensure there is no longer an oil tank on the premises.

The tax will be discontinued as of the date the report was submitted.

Any overpaid sums will be refunded to you.
